

# Parents, teachers, and students find free remote-learning resources at New Mexico STEAM Hub

September 15, 2020

LOS ALAMOS, N.M., Sept. 15, 2020—Parents, teachers, and students can find an array of regional and national resources for science, technology, engineering, art, and math (STEAM) education consolidated in one convenient place at [www.nmsteamhub.com](http://www.nmsteamhub.com). New this year and supported by Los Alamos National Laboratory, it's an online, one-stop shop for child care resources, parent guides for online learning, and STEAM activities to do at home.

“Back-to-school 2020 has challenged all of us to become more resourceful and creative,” said Thom Mason, director of Los Alamos National Laboratory. “Now more than ever, it's critical for the Laboratory to be a partner in education. I commend the New Mexico STEAM Coalition for seeing the need for the STEAM Hub and applaud the enthusiasm of our regional partners who joined the effort.”

The site offers various kinds of educational support, including:

- Searching local childcare options via its Child Care & Connection Hub
- Teacher guides for creating video lessons and podcasts
- Parent guides for virtual K-12 learning
- Resources such as virtual events, virtual field trips, and hands-on activities to do at home
- Locating free internet hotspots via its Hotspot Map

Visitors to the site will also find learning opportunities in STEAM from regional partners such as Explora, Twirl, and [STEM Santa Fe](#), as well as national organizations like Battelle Memorial Institute, Khan Academy, NASA, TGR Foundation, and the math-education website [youcubed.org](http://youcubed.org).

The free, online resource is collective action initiative of the New Mexico STEAM Coalition and developed with support from LANL Foundation, Los Alamos National Laboratory, Triad National Security, and the Community Learning Network and made possible via contributions from LANL Major Subcontractors Consortium, the New Mexico Foundation, New Mexico Gas Company, New Mexico TechWorks, NSF Smart and Connected Communities, Internet Society and the Internet Society New Mexico Chapter, Opportunity Santa Fe, AmeriCorps VISTA volunteers and interns, North Central New Mexico Economic Development District, and numerous regional STEAM advocates, organizations, and agencies.
